

NEW

Pebbles on the beach or river banks are irregular and random yet they fit and belong together. This is the concept that “inspired” the modular system **Kei**. The elements can be configured in a myriad of different ways and allow for easy re-configuration as it’s free of the grid planning systems. Kei creates an organic landscape when grouped together or used as an individual shape. The table tops are MDF with powder coat finish or veneer, and the bases are available in chrome or coffee bean lacquer.

**The Bulo Team** consists of architects, interior designers, product developers and craftsmen. With passion for furniture and eye for detail we strive to create products that make people find pleasure in their daily activities. Since the founding of the company, we've always had a great eye for tendencies in the office and furniture industry. We're not afraid to explore the unexplored, which led to the creation of multiple innovative collections, such as the organic 'Kei' tables in 2008, the 'grID' collection inspired by De Stijl in 2012 and the modular 'Dan' series in 2014.
